Re: Support for ClimatePlan's application For Community Transportation Needs Assessment

To Whom It May Concern,

I am writing on behalf **Climate Action Campaign** to indicate our strong support for ClimatePlan's application to the Community Transportation Needs Assessment project of the Clean Mobility Options Pilot Program.

Climate Action Campaign has been involved in ClimatePlan's San Diego regional roundtable with the propose to amplify and empower community voices by being provided access to technical assistance in housing, land use and transportation decision-making. The Community Transportation Needs Assessment project will help create a strong and consistent message that helps bridge the gap of understanding of road user charge to residents and policymakers in San Diego.

Climate Action Campaign strongly endorses the Community Transportation Needs Assessment project application submitted by ClimatePlan. If you have further questions or require additional information, please do not hesitate to contact me **619-419-1222 ext. 702** or **corinna@climateactioncampaign.org**.

Sincerely,

Corinna Contreras
